ITU World Radiocommunication Seminar

INTERNATIONAL TELECOMMUNICATION UNION • 4 December 2020

EUTELSAT IGO team participated this week in the World Radiocommunication Seminar organised by the International Telecommunication Union (ITU). Given the ongoing global COVID-19 pandemic, this edition of the seminar was held online.

This event presents an opportunity for key stakeholders to better understand the challenges and importance of the Radiocommunication sector. It also provides interactivity with key members of the ITU-R who are best positioned to provide detailed information on the ITU Radio Regulations. The following topics of interest to the Organisation were presented in great details:

- Structure of the Radiocommunication Sector;
- Legal framework of the ITU-R;
- Outcome of the World radiocommunication Conference (WRC) 2019 and preparation for the 2023 WRC;
- Activities and Operations within the Space Services Department.

About EUTELSAT IGO

EUTELSAT IGO is the European Telecommunications Satellite Organization. Established by an international treaty, the intergovernmental organisation is headquartered in Paris and comprises 49 Member States. Its primary mission is to ensure that the company Eutelsat S.A. complies with the Basic Principles of the EUTELSAT Amended Convention. It also ensures continuity of the rights to use radiofrequencies and orbital locations which were assigned collectively to the Member States and the Organisation by the International Telecommunication Union. EUTELSAT IGO is an active contributing member of the international telecommunications and space communities.
